SUBJECT INDEX

Volume 35

Antimetastatic activity, the, of enkephalin-like peptides, 133
Aromatic amines in rat liver, induction of ornithine decarboxylase by, 65
5-Azacytidine and its relevance to the nuclear methylating activities, suppression of nuclear ADP-ribosyltransferase activity in regenerating rat liver by, 245

B16 melanoma, differences between the F10, BL6 and F1 sublines of the, in the enhancement of plasminogen activator inhibitor secretion by phorbol myristate acetate, 27
Benzo[*a*]pyrene, modulation of transcription in rat liver by, 191
Benzo[*a*]pyrene-globin adducts, investigation of, 139
N-Butyl-*N*-(4-hydroxybutyl) nitrosamine, modification by α-tocopherol, propyl gallate and tertiary butylhydroquinone of urinary bladder carcinogenesis in Fischer 344 rats pretreated with, 39

Cabbage and vitamin E: their effect on colon tumor formaton in mice, 71
Calcium L-ascorbate, L-ascorbic dipalmitate, L-ascorbic stearate and ethythorbic acid on rat urinary bladder carcinogenesis, absence of promotion potentional for, 17
Carcinogenic effects, comparison of the, of two 2-nitro-naphthofurans, injected sub-cutaneously in rats, 59
Cell populations of line 168 mouse mammary tumors: a morphometric and ultrastructural study, influence of dietary fats on, 281
Ceruloplasmin mRNA in Balb/C 3T3 cells after Rous-Sarcoma virus transfection, induction of the, 173
Colon tumor formation in mice, cabbage and vitamin E: their effect on, 71
Cultured human tumor cells, synergistic activity of purine metabolism inhibitors in, 97
Cyclosporin A, lethality of human melanoma cells for normal mice immunosuppressed with, 166

Daunomycin accumulation in resistant tumor cells as a screening model for resistance modifying drug: role of protein binding, 87
Desmoplastic response to tumour invasion, an experimental model for studying the, 271
cis-Dichlorodiammineplatinum(II) resistance, cross-resistance to ouabain in a murine leukemia cell variant selected for, 147
Dietary seaweeds, the effect of, on 7,12-dimethylbenz[*a*]anthracene-induced mammary tumorigenesis in rats, 109
Dietary fats, influence of, on cell populations of line 168 mouse mammary tumors: a morphometric and ultrastructural study, 281
Diethylnitrosamine-treated rats, persistent structural change in replicating hepatic DNA isolated from, 263
Diethylstilbestrol, metabolic activation of, by stimulated human leukocytes, 79
1,3-Diethyltriazene, tumors in F344 rats by oral administration of, 129
Difluoromethylornithine in rats, importance of the duration of inhibition on intestinal carcinogenesis by, 153
3,2′-Dimethyl-4-aminobiphenyl given with methyltestosterone, lack of tumorigenic response in the prostate gland of castrated F344 rats by, 1
7,12-Dimethylbenz[*a*]anthracene-induced mammary tumorigenesis in rats, the effect of dietary seaweeds on, 109
1,1-Dimethylhydrazine (UDMH), induction of malignant peripheral nerve sheath tumors in European hamsters with, 303

DNA adducts in mouse skin treated with metabolites of chrysene, formation of, 207

Endogenous formation, potential, nitrosation products from the plant *Ephedra altissima* and their, 199
Enkephalin-like peptides, the antimetastatic activity of, 133
Erythorbic acid, absence of promotion potential for calcium L-ascorbate, L-ascorbic dipalmitate, L-ascorbic stearate and, on rat urinary bladder carcinogenesis, 17
Estrogen receptor system, functional integrity of the, and failure of estrogen to induce proliferation, growth of mouse vaginal epithelial cells in culture, 227
Ethinyl estradiol, lesions of the prostate glands and seminal vesicles induced by *N*-methylnitrosourea in F344 rats pretreated with, 7

Gamma glutamyl transpeptidase in tumour tissue, transformation of a rat liver cell line: neoplastic phenotype and regulation of, 215

Hepatic DNA, persistent structural change in replicating, isolated from diethylnitrosamine-treated rats, 263
Human leukocytes, metabolic activation of diethylstilbestrol by stimulated, 79
Human melanoma cells for normal mice immunosuppressed with cyclosporin A, lethality of, 166

Intestinal carcinogenesis by difluoromethylornithine in rats, importance of the duration of inhibition on, 153
In vitro drug sensitivity studies in human transitional cell carcinoma of the bladder, 181

Malignant peripheral nerve sheath tumors, induction of, in European hamsters with 1,1-dimethylhydrazine (UDMH), 303
Membrane-bound hematoporphyrin derivative, singlet oxygen intermediacy in the photodynamic action of, 295
Metabolic activation of diethylstilbestrol by stimulated human leukocytes, 79
Metabolites of chrysene, formation of DNA adducts in mouse skin treated with, 207
N-Methylnitrosourea in F344 rats pretreated with ethinyl estradiol, lesions of the prostate glands and seminal vesicles induced by, 7
Methyltestosterone, lack of tumorogenic response in the prostate gland of castrated F344 rats by 3,2′-dimethyl-4-aminobiphenyl given with, 1
Micronucleus formation induced in rat liver and esophagus by nitrosamines, 313
Mitogenic activity of a phorbol ester tumor promoter, a unique sialoglycopeptide growth regulator that inhibits, 119
Murine leukemia cell variant selected for *cis*-dichlorodiammineplatinum(II) resistance, cross-resistance to, 147

Neoplastic phenotype and regulation of gamma glutamyl transpeptidase in tumour tissue, transformation of a rat liver cell line:, 215
Neoplastic transformation induced by DNA-transfection, thyroid hormone affects the expression of, 321
2-Nitro-naphthofurans injected subcutaneously in rats comparison of the carcinogenic effects of two, 59
Nitrosamines, micronucleus formation induced in rat liver and esophagus by, 313
Nitrosation products from the plant *Ephedra altissima* and their potential endogenous formation, 199
Nuclear ADP-ribosyltransferase activity, suppression of, in regenerating rat liver by 5-azacytidine and its relevance to the nuclear methylating activities, 245
Nuclear methylating activities, suppression of nuclear ADP-ribosyltransferase activity in regenerating rat liver by 5-azacytidine and its revelance to the, 245

Oral administration of 1,3-diethyltriazene, tumors in F344 rats by, 129
Ornithine decarboxylase, induction of, by aromatic amines in rat liver, induction of, 65

Osteogenic sarcoma, effect of transplanted, on urinary RNA catabolites, 47
Ouabain, cross-resistance to, in a murine leukemia cell variant selected for *cis*-dichlorodiammineplatinum(II) resistance, 147

Phorbol ester tumor promoter, a unique sialoglycopeptide growth regulator that inhibits mitogenic activity of a, 119
Phorbol myristate acetate, differences between the F10, BL6 and F1 sublines of the B16 melanoma in the enhancement of plasminogen activator and plasminogen activator secretion by, 27
Photodynamic action of membrane-bound hematoporphyrin derivative, singlet oxygen intermediacy in the, 295
Plasminogen activator and plasminogen activator inhibitor secretion by phorbol myristate acatete, differences between the F10, BL6 and F1 sublines of the B16 melanoma in the enhancement of, 27
Promotion potential, absence of, for calcium L-ascorbate, L-ascorbic dipalmitate, L-ascorbic stearate and ethythorbic acid on rat urinary bladder carcinogenesis, 17
Propyl gallate and tertiary butylhydroquinone, α-tocopherol, of urinary bladder carcinogenesis in Fischer 344 rats pretreated with *N*-butyl-*N*-(4-hydroxybutyl)nitrosamine, modification by, 39
Prostate gland of castrated F344 rats, lack of tumorigenic response in the, by 3,2′-dimethyl-4-aminobiphenyl given with methyltestosterone, 1
Prostate glands and seminal vesicles induced by *N*-methylnitrosourea in F344 rats pretreated with ethinyl estradiol, lesions of the, 7
Protein binding, role of, daunomycin accumulation in resistant tumor cells as a screening model for resistance modifying drugs:, 87
Purine metabolism inhibitors, synergistic activity of, in cultured human tumor cells, 97

Radical scavengers, inhibition of 12-*O*-tetradecanoylphorbol-13-acetate-enhanced transformation in vitro by, 167
Rat urinary bladder carcinogenesis, absence of promotion potential for calcium L-ascorbate, L-ascorbic dipalmitate, L-ascorbic stearate and erythorbic acid on, 17
Resistance modifying drugs, daunomycin accumulation in resistant tumor cells as a screening model for: role of protein binding, 87
Rous-Sarcoma virus transfection, induction of the ceruloplasmin mRNA in Balb/C 3T3 cells after, 173

Seminal vesicles, induced by *N*-methylnitrosourea in F344 rats pretreated with ethinyl estradiol, lesions of the prostate glands and, 7
Singlet oxygen intermediacy in the photodynamic action of membrane-bound hematoporphyrin derivative, 295
Synergistic activity of purine metabolism inhibitors in cultured human tumor cells, 97

Tertiary butylhydroquinone, α-tocopherol, propyl gallate and, of urinary bladder carcinogenesis in Fischer 344 rats pretreated with *N*-butyl-*N*-(4-hydroxybutyl)nitrosamine, 39
12-*O*-Tetradecanoylphorbol-13-acetate-enhanced transformation in vitro by radical scavengers, inhibition of, 167
Thyroid hormone affects the expression of neoplastic transformation induced by DNA-transfection, 321
α-Tocopherol, propyl gallate and tertiary butylhydroquinone of urinary bladder carcinogenesis in Fischer 344 rats pretreated with *N*-butyl-*N*-(4-hydroxybutyl)nitrosamine, modification by, 39
Transitional cell carcinoma of the bladder, in vitro drug sensitivity studies in human, 181
Tumorgenic response, lack of, in the prostate gland of castrated F344 rats by 3,2′-dimethyl-4-aminobiphenyl given with methyltestosterone, 1

Urinary bladder carcinogenesis in Fischer 344 rats pretreated with *N*-butyl-*N*-

(4-hydroxybutylnitrosamine modification by α-tocopherol, propyl gallate and tertiary butylhydroquinone of, 39
Urinary RNA catabolites, effect of transplanted osteogenic sarcoma on, 47

Vinyl chloride manufacturers, a cohort study on, in Italy:, study design and preliminary results, 253
Vitamin E, cabbage and: their effect on colon tumor formation in mice, 71

Xanthates, selective killing of tumor cells by, 237

Cancer Letters, 35 (1987) 331—332
Elsevier Scientific Publishers Ireland Ltd.
